NUMBER 33.

Reception This Afternoon.

THE friends of Dr. and Mrs. E. H. Rutherford of all of the denominations of our city are invited to attend the reception given to them to-day by the ladies of the Second Presbyterian Church at the residence of Mr. Newton Mitchell, on Duncan avenue, from 3 to 6 p. m.

About Main Street.

James M. O'Brien, Chairman of the Improvement Committee of the City of Paris, has received the following letter:

Dear Sir:—Replying to your favor of the 4th inst. We intend to make the necessary corrections and repairs in the pavement on Main street. This work we could begin now, but the weather is likely to be unsettled and we would, therefore, prefer to wait until May 1st. Still, if the weather is favorable, we may begin work earlier.

We cannot say at this writing how long it will take to do the work, for we do not know how much is to be done. But we mean to do it thoroughly and to your satisfaction, and complete it as quickly as possible.

Yours very truly,
NATIONAL BITUMEN CO.

SELECT your wall paper now from J. T. Hinton's large stock. The best of decorators to hang same.

Another Street Wedding.

Street weddings are ceasing to be a novelty in Paris, as another one came off Friday at noon. Mr. Wakeman Moore and Miss Lena Trent, both of Centerville, this county, drove to town in a buggy Friday and secured a marriage license and then turned the horse's head up street in quest of some one to tie the knot. As they turned into Seventh street they spied Squire J. P. Howell standing on the street talking to some friends. They called him aside, produced their license, and were married without getting out of the buggy. The Squire's ceremony was short and sweet, and after congratulations of the crowd attracted by the rather unusual scene, the happy couple drove to their home. This is the second wedding of the kind in our city in past few months.

Ex-Parisian Meets With Serious Accident.

The Sunday Courier-Journal gives the following account of an accident which came near being fatal to an ex-Parisian:

"Harry D. Hutchcraft, check clerk of the Louisville Transfer Co., while driving on Fourth avenue, between Broadway and York streets, Saturday collided with a street car with serious results.

"Mr. Hutchcraft was in a buggy, intending to call at the residence of Mrs. Elizabeth Lytle. In attempting to turn his vehicle from the east to the west side of the street, about 50 feet in front of the car, which was going south, his horse became frightened at the sound of the car-gong, and attempted to run. Before Mr. Hutchcraft could clear the track the car struck the buggy about midway, throwing it 8 or 10 feet into the air. Mr. Hutchcraft was thrown violently into the street, and the buggy, which was smashed, was hurled over his prostrate body, partly on the pavement. The horse broke loose from the debris of the buggy.

"Mr. Hutchcraft was carried, shocked and bleeding profusely about the face and head, into Mrs. Lytle's house, where Drs. Ewing Marshall, George W. Griffiths, L. H. Kerr and W. H. Coleman made an examination. He was found to have sustained a deep cut in the back of the scalp, a concussion of the head, and another on his left hip. His skull was not fractured, which the physicians considered remarkable, considering the depth of the cut in his scalp. He was taken to Sts. Mary and Elizabeth Hospital."

Mr. Hutchcraft is a brother of Miss Anna Hutchcraft and Perry Hutchcraft, of this city, and has been employed by the Louisville Transfer Co. for about 15 years. A telephone message from his nurse at the hospital to his sister, on yesterday, announced that he was getting along nicely and that his injuries were not considered fatal.

Something to Fight For.

The Nashville American points out that five months ago Roosevelt carried Chicago by 110,000 plurality, and that week before last a Democrat was elected Mayor by 24,000 plurality. "This," remarks the American, "is a change of 135,000 votes in a single city." The American, however, does not go into detail. It could have pointed out, if it so desired, that a Republican carried Chicago five months ago because Democratic Democrats had nothing in particular to fight for, when week before last Democratic Democrats carried Chicago because they had a vital issue and a strong principle to fight for. When Democracy goes before the people on issues that are of vital interest, and defends principles dear to the hearts of all loyal Americans, Democracy will win. The Democratic party has tried catering to the plutocratic interests that control the Republican party, and has found that it can not outbid the Republican party for the favor of plutocracy. Let the Democracy now get back to the people, stand for the interests of the people and fight for the interest of all instead of the interests of the privileged few. The American is one of the Democratic newspapers that has tried to outbid the Republicans for plutocratic favor.

If Judge Paynter thinks it highly improper for a man occupying an exalted position on the bench to discuss politics, why don't he resign? He cannot claim there are no issues between himself and Blackburn, for he and his friends on the throne at Frankfort have made them and they are being proclaimed through their favorite mediums. Let Judge Paynter follow the commendable examples of Judge Van Wyck, Judge Parker and Judge Herrick, three eminent judges of New York State, if he really thinks he can beat Blackburn, for he is said to be a man of wealth and the paltry salary as Judge of the Court of Appeals for a few months is not enough for him to care for. Be a man, if the gang will allow you, and resign. The candidate who will not come out in the open and make his canvass before the people is not the candidate for Kentucky. Still hunts and machine campaigns are only popular these days in the Eleventh district and with the Republican party generally.

An interesting story is told of inserted an comma which cost the United States Government \$2,000,000. When the United States Congress was drafting the tariff bill, it enumerated in one section the articles to be admitted on the free list. Among these were "all foreign fruit-plants." The copying clerk in his superior wisdom, omitted the hyphen and inserted a common after "fruit," so that the clause read "all foreign fruit, plants, etc." The mistake could not be rectified for about a year, and during this time all oranges, lemons, bananas, grapes and all other foreign fruits were admitted free of duty, with a loss to the Government of at least 2,000,000 for that year.

JAPAN accuses France of repeated violations of the laws of neutrality and intimates that she will call upon England to take a hand in the conflict. By the treaty of alliance between Japan and England if either power the other party to the alliance must come to its ally's aid. England and France have just concluded some treaties and are themselves almost allies. So they will arrange some way to avoid participation in the present war.

NORMAN HAPGOOD summarizes Thomas W. Lawson as a gentleman of fortune, a charlatan, an adventurer, and a liar. This language used by a Kentuckian to describe another Kentuckian might cause bloodshed, but in a controversy between a New Yorker and a Bostonian it promises nothing more than inkshed.

A NEW YORK journalist describes Joseph W. Folk as "a rather small man with round, big head." A smaller man would have a bigger head if he had done what Folk had done for St. Louis and Missouri.

SINCE skunks are made into "a tasty dish" in New York, we may expect to hear of hash being made from automobile gliblets gathered after a mishap.

STOCK AND CROP.

—In Montgomery R. L. Tipton sold a carload of fat cattle, weight 1,440 lbs., to W. B. Greene for \$5.25 per hundred.

—One farmer in Mason county received from a merchant of Maysville a check for \$630 for his hams and bacon this year.

—Eight thousand four hundred and seventy-two calves were received at the Chicago market last Tuesday, which we believe breaks the record for single day receipts.

—T. R. Webber, of Shelbyville, recently sold to Mr. Irvine, of Indianola, Miss., for \$750, his fine two-year-old saddle stallion by Montrose, out of a daughter by Chester Chief.

—The Continental Tobacco Co. has just completed the purchase in Montgomery county of 2,500,000 pounds of tobacco at an average of 7 1/2c. The entire crop brought about \$250,000.

—The public sale of Hereford cattle held by C. A. Stannon at Pueblo, Col., last Thursday averaged \$100. The best bulls sold from \$150 to \$250 each. The demand for cows was not so good.

—Trainer Robert Frakes and Kip Hume left for St. Louis Friday night in charge of O. V. Hume's stable of bangtails. Among the shipment were Leona Lee, Erla Lee, Sweet Swar, Mac Deceiver, Roses, Blue Silk, Maria Dudley and Mazeppa.

—J. F. Cook & Co., of Lexington, have shipped to their place at Beloit, Kan., a carload of jacks from three to six years old, 14 1/4 to 15 1/4 hands high. They are all black with the exception of one, which is a dark gray, and all but one are registered or subject to registry.

—The Maysville Bulletin says that up to 1860 any field in the good land district of Mason county would grow hemp, considered the hardest crop to raise. Now likely there is scarcely a field in the county that will bring this crop, owing to the improvidence of the land by tobacco culture.

—The combination Shorthorn sale at Kansas City under the management of W. C. McGavock, Springfield, Ill., held last week, resulted in the disposal of ten bulls for \$1,745, an average of \$114.50; 8 females for \$1,755, an average of \$90.17, and 28 head for a general average of \$104.71. The top price was \$235 for a nine-months-old pure Scotch bull. The sale was largely attended and cattle as a rule brought what they were worth.

—The loss of farm animals for the year ending March 31st, 1905, was greater than during the preceding year. The figures given by the Bureau of Statistics show cattle losses to be the heaviest. The total loss of cattle from all causes was 2,687,027. The estimated loss of horses by disease was 306,651, while that of swine was 2,401,796. The total loss of sheep was 2,498,767. Of the total number of cattle lost nearly one-third were from Texas. Iowa lost the largest number of hogs and Montana was the greatest loser of sheep.

—Luther Hamilton bought of Harry and Hub Schriener a lot of hay-fed hogs, average about 120 pounds, at five cents. The Schriener brothers were the first to experiment with hay as a food for hogs. By mixing in a few ears of corn with a bunch or two of hay a combination, or hash, is made, which the hogs enjoy and fatten upon. Owing to the practice of this method the hogs sold to Mr. Hamilton were brought into marketable condition in a shorter time and at less expense, than the old system of feeding corn straight would have required. The important discovery for which the public is solely indebted to the Messrs. Schriener, is destined to work a great revolution in the hog industry.—Winchester Democrat.

The Great Wheat Corner.

The great wheat corner in Chicago which caused that staple to advance ten days ago to \$1.20 a bushel has had a collapse, with a decline to \$1 on Saturday. John W. Gates, who for some time has been a successful plunger in the stock and produce markets and on the race tracks, is credited with the manipulation which bulled the market to so high a notch, and if current reports are true he has pressed his luck once too often. This time last year it was a cotton king who was dethroned by a similar break in that staple, and now it is a wheat magnate. But Sully is on his feet again, asserting his former supremacy in regard to the Southern stable, and if Gates should meet with a serious reverse he is a man of such resources as to make similar recuperation quite as certain. It may be that from having been a bull he has become a bear, and will win instead of lose. There is one feature about these downward turns in the market. They generally occur just when the farmer, under the stimulus of artificial prices, has a full crop in the ground and is then confronted with the prospect of correspondingly low figures. The rise rarely takes place until after the crop is parted with, when the price is again located by the speculators.

May wheat took another fall in price yesterday, opening at 96 to 98, as against \$1 at the close Saturday.

The new court house is ready to be turned over by the contractors to the county. The interior is finished with the exception of the decorators, who are at work. Mr. Milburn, the architect, is expected here Wednesday morning to make an inspection of the building. We suppose the opinion of Mr. Milburn will have something to do with the proposed change in the steps.

Butler to re-index, re-number and re-box the records of his office for \$3,300. There are 46,300 cases to handle and will be a very tedious and laborious job. The Fayette Fiscal Court paid the clerk \$15,000 to do this work in that county. What has been paid clerks in other counties for such work this contract is an extra good one for the county.

Miss Butler is a handsome, dark-eyed girl with very engaging manners. She hardly looks out of her teens, though her work shows mature judgment."

In notice of the entertainment at dinner by Mrs. Fairbanks, wife of the Vice-President, to the delegates, the writer says: "Miss Margaret Butler, of Paris, was chic and picturesque in a graceful gown of white point d'esprit over silk."

Oldest Track in America.

The track of the Kentucky Racing
Association at Lexington is the oldest
and most historic race course in
America. It had been allowed to go
to rack and would have been cut up
into town lots by its owner, a St. Louis
real estate dealer, had not the Pitts-
burg millionaire coal king, Capt. S.
S. Brown, come to the rescue. Capt.
Brown feels a great interest in Ken-
tucky, and simply for the sake of pre-
serving the famous track he paid \$35,-
000 for it and has expended \$151,000 in
improvements on it. As might be ex-
pected, it is now the handsomest and
most complete racing plant its size
in America. Capt. Brown also deter-
mined to revive racing at Lexington.
He reorganized the Kentucky Racing
Association, formed originally in 1826
with such men in its board of directors
as Col. E. F. Clay, of Paris, Mr. J. N.
Camden, Jr., of Versailles, Mr. C. F.
McMeekin and Mr. J. S. Stoll, of Lex-
ington. A spring meeting of six days
will be held at Lexington, May 3rd to
9th. Such famous events as the Dis-
tillers Handicap and the Phoenix Ho-
tel Stakes, for which a decade ago the
greatest horses in America contested
will again be witnessed, and the meet-
ing promises to be a tremendous suc-
cess. Reduced rates will be offered
by all the railroads.

CATARRHAL TROUBLES PREV-
ALENT.

Spring Months Cause Sickness—
Breathe Hyomei, and Be Cured
of Catarrh.

Catarrhal troubles are more com-
mon at this season than any other
time of the year. The sudden chang-
es that come during the spring months
are productive of many cases of
catarrh that without proper treatment
will become chronic.

The pleasantest, most convenient,
and only scientific method for the
treatment and cure of catarrh, is
Hyomei. Simply put twenty drops in
the little pocket inhaler that comes
with every outfit, and then breathe
it for three minutes four times a day.

No dangerous drugs or alcoholic
concoctions are taken into the sys-
tem when Hyomei is used. Breathed
through the inhaler, the balsamic
fragrance of Hyomei penetrates to the
most remote cells of the nose and
throat, and thus kills the catarrhal
germs, heals the irritated mucous
membrane, and gives complete and
permanent cure.

Thousands of testimonials have been
given as to the astonishing cures
made by this remedy. J. S. Nugent,
treasurer of the New York Life In-
surance Company, writes: "Hyomei
has completely cured my daughter of
catarrh from which she has been a
sufferer for years."

The complete Hyomei outfit costs
but one dollar, and as the inhaler
will last a lifetime and there is suf-
ficient Hyomei for several weeks'
treatment, it is the most economical
catarrhal remedy known. Extra bot-
les can be procured for fifty cents.
Ask Clarke & Co. to show you the
strong guarantee under which they
sell Hyomei.

Locust Year.

A prediction that will not cause much pleasure is that the advance guard of seventeen year locusts is on the road and will reach here in May or June. The main body of the insects will not arrive here before next year. This is the prediction of State Entomologist H. Garman of Lexington. This means serious injury to fruit trees and young forest trees in the States which will be visited by the insects, namely: West Virginia, Virginia, Tennessee, Missouri, Illinois, Ohio, Indiana, Kentucky, Pennsylvania, and the forests of New York. Popular interest in the locust, which appear once in seventeen years, is revived by Prof. Garman's statement, and popular superstition says that they are harbingers of war, foretelling either the beginning or end of some great war. Hence, knowing ones say that the close of the Japanese-Russian war is at hand. The war superstition arises from the fact that on the transparent wings of the locust is wrought in bright red the letter W.
